

Articles, Determiners and Quantifiers

The Small Words That Make a Big
Difference

Our Learning Goals

By the end of this lesson, you will be able to:

- **Identify** articles, determiners, and quantifiers in sentences.
- **Understand** the difference between specific and general things.
- **Choose** the correct word to match the noun (the naming word).
- **Write** clear sentences using the right 'little words'.

Key Vocabulary

Article

Words like 'a', 'an', and 'the' that go before a noun.

Determiner

A word that introduces a noun and tells us more about it.

Quantifier

Words that tell us 'how much' or 'how many' there are.

Specificity

How exact or specific we are being about something.

What are Determiners?

The 'Intro' Words

Imagine you are at a party. Before you introduce yourself, you might say 'Excuse me'.

In English, **determiners** are like the 'Excuse me'. They come **before** a noun (a person, place, or thing) to introduce it.

They help the reader know what to expect next!

The Three Articles

The Tiny Team

There are only three articles in English, but we use them all the time!

1. **a**
2. **an**
3. **the**

They are the most common type of determiner.

Indefinite Articles: A and An

Talking About Any One

We use **a** and **an** when we are talking about **any** one thing, not a specific one. It's like picking a random item from a group.

- **A** goes before words that start with a consonant sound (like b, c, d, f).
- *Example: a ball, a dog, a cup.*
- **An** goes before words that start with a vowel sound (like a, e, i, o, u).
- *Example: an apple, an egg, an umbrella.*

Definite Article: The

Talking About a Specific One

We use **the** when we are talking about **one specific** thing. It's like pointing your finger exactly at it.

- *Example:* Please pass **the** salt. (I mean that specific salt shaker right there!)
- *Example:* Look at **the** moon. (There is only one moon we can see.)

Can you spot the difference?

Left: A balloon (any balloon). Right: The balloon (that specific one).

Quick Quiz: A, An, or The?

Answers on the next slide...

Choose the correct word: I saw _____ elephant at the zoo.

1.

a

2.

an

3.

the

4.

and

Quick Quiz: A, An, or The?

Choose the correct word: I saw _____ elephant at the zoo.

1.

a

2.

an

3.

the

4.

and

Demonstratives: Pointing It Out

Pointing Words

These determiners help us point to things, just like using our finger!

- **This:** Used for something close to you.
Example: This book is mine.
- **That:** Used for something far away.
Example: That bird is high in the sky.
- **These:** Plural (more than one), close.
Example: These biscuits are yummy.
- **Those:** Plural (more than one), far.
Example: Those clouds look like rain.

Possessives: Whose Is It?

Ownership Words

These determiners tell us who **owns** the noun. They show possession.

- **My:** *My hat* (It belongs to me).
- **Your:** *Your turn* (It belongs to you).
- **His / Her:** *His bike / Her bag*.
- **Our:** *Our class* (It belongs to us).
- **Their:** *Their house* (It belongs to them).

True or False?

The word 'their' is a possessive determiner because it shows who owns something.

TRUE

FALSE

Answers on the next slide...

True or False?

The word 'their' is a possessive determiner because it shows who owns something.

TRUE

Correct! Words like my, your, his, her, its, our, and their show possession.

What are Quantifiers?

How Much or How Many?

While determiners point out things, **quantifiers** tell us the **amount**. They answer the question: 'How many?' or 'How much?'

They help us be precise about numbers and quantities.

Quantifiers for Things You Can Count

Small Amounts

We use these for countable items (like apples, dogs, cars).

- **Few:** *I have a few pens.* (Not many, but some).
- **A couple of:** *I have a couple of friends.* (Two or three).
- **Many:** *There are many stars.* (A large number).

Large Amounts

- **Several:** *She read several books.* (More than two, but not a huge number).
- **All:** *All students must line up.* (The whole group).
- **Every:** *Every seat is taken.* (Each single one).

Quantifiers for Things You Can't Count

Mass Nouns (Liquids, Powders, Ideas)

Some things you can't count one by one, like water, sand, or music. For these, we use different words.

- **Some:** *I need some water.*
- **Much:** *There isn't much time left.*
- **A lot of:** *We have a lot of rice.*
- **Little:** *There is a little milk left.*

Countable vs. Uncountable

Countable

- Many apples
- A few coins
- Several dogs

Uncountable

- Much water
- A little sand
- A lot of music

Quick English Revision

What are
Determiners?

Concept Video

Fill in the Blanks

I would like ____ bananas, please. There is ____ milk in the fridge, but not ____.

Word bank 

some, some, much, a, an, many, few

Answers on the next slide...

Fill in the Blanks

I would like **some** bananas, please. There is **some** milk in the fridge, but not **much**.

Word bank 

some, some, much, a, an, many, few

Numbers as Determiners

Being Exact

Numbers are also determiners! They tell us exactly how many things there are.

- **One** cat sat on the mat.
- **Two** birds flew away.
- **Ten** students are present today.

When you use a number before a noun, you are using a determiner.

Question Words: Which and What

Asking Questions

We also use determiners when we ask questions about nouns.

- **Which:** Used when choosing between a specific group.
- *Example: ice-cream flavour do you want? (Chocolate, Vanilla, or Strawberry?).*
- **What:** Used in a more general or open way.
- *Example: is that noise?*

Choose the Right Quantifier

Answers on the next slide...

There are _____ people in the line, so we won't wait long.

1. much

2. a little

3. few

4. many

Choose the Right Quantifier

There are _____ people in the line, so we won't wait long.

1. much

2. a little

3. few

4. many

Match the words with the definitions

1.

Specificity

2.

Quantifier

3.

Possessive

4.

Noun

- a) Words that show who owns an item, such as 'my', 'your', or 'their'.
- b) A naming word for a person, place, thing, or idea, like 'cat' or 'table'.
- c) Being exact and clear about the specific thing you are talking about.
- d) A word that tells us the amount of something, answering 'how much' or 'how many'.

Match the words with the definitions

1.

Specificity

c) Being exact and clear about the specific thing you are talking about.

2.

Quantifier

d) A word that tells us the amount of something, answering 'how much' or 'how many'.

3.

Possessive

a) Words that show who owns an item, such as 'my', 'your', or 'their'.

4.

Noun

b) A naming word for a person, place, thing, or idea, like 'cat' or 'table'.

Class Discussion

Why do we say 'less water' but 'fewer bottles'? Can you explain the rule to a friend?

Class Discussion

You might have said...

We use 'fewer' for things we can count (like bottles).

We use 'less' for things we cannot count (like water).

This is the countable vs uncountable rule!

Order the Sentence

Answers on the next slide...

Put these words in the correct order to make a sentence.

those

are

shoes

my

Order the Sentence

Put these words in the correct order to make a sentence.

those

1.

are

2.

my

3.

shoes

4.

Detective Challenge

Take out your reading book. Open to any page. Find **three** different determiners or quantifiers. Write them down and label them as an article, a quantifier, or a possessive. Share your findings with a partner!

Summary

Great Job!

Today we learned:

- **Determiners** introduce nouns.
- **Articles** (a, an, the) specify if something is general or specific.
- **Quantifiers** tell us how much or how many (many, few, some).
- **Possessives** show who owns something (my, your, their).

Keep an eye out for these helpful words in your reading and writing!
